

Shelby v.5.

Our software is powerful, yet easy to use.
You'll never outgrow it.

Our popular **module-based architecture** will accommodate your changing needs as your church membership grows, as computers are added and updated, and as you expand your staff. Helping manage your church's growth is what we do.

We partner with a wide range of vendors to provide **integrated** products, boosting the power of our software. Build your own system designed around your specific needs and **security** concerns.

Our exceptional **customer service** technicians understand how churches operate and the details that are important to your ministry. Every Shelby v.5 system is built around a **centralized database** to eliminate double-entry and synchronization issues. Centralized data is critical for producing the **reports** you need to track your progress and plan for the future. We also provide convenient onsite and online **educational options** to keep your staff and volunteers trained.

Shelby v.5's rock-solid **financials** meet and follow non-profit fund accounting standards. This, perhaps, is one of the most critical components of financial accountability.

Join the Shelby **community** of thousands of churches of all sizes and denominations. At Shelby Systems, we can help.

Save over \$1,500.

We offer incredible savings on special value packages to help churches get started.

Manage growth in stride.

Consider the data that you're accumulating on a daily, weekly, monthly and yearly basis.

- Are you juggling multiple programs to get things done?
- Is your data private and secure?
- Are you collecting the right information?
- What reports would you really like to have?
- How much of your time is spent comparing duplicate records?
- Is there a need for simultaneous users?
- Can someone else come in behind you and figure out your current system?
- Are you following financial best practices?
- Do you dream of tech support that really understands church ministry?

We can **Help**

You have a **vision** for the direction of your ministry. The business of growing a church is hard work. We know that. We've been serving ministries for over 30 years.

We are here to provide the information and technology tools that you need for your ministry to thrive.

While our software receives rave reviews from our customers, what sets Shelby Systems apart is the **relationships** that your staff and volunteers will build with our dedicated team members. It's the caring and sharing that you'll experience as part of the worldwide Shelby **community**.

Take a moment and discover if the Shelby Systems **advantages** are right for you.

SHELBY  SYSTEMS™

"In Shelby v.5, you can easily manage your database and obtain information quickly. As a church we want to respond quickly to our members' needs and Shelby helps us do that."

Darlene, Little Rock

"Shelby v.5's integration of financial and non-financial information simplifies our church data entry and assures that we all have the most accurate information for our members. The software provides many useful standard reports, as well as the ability to write your own. Combine this quality product with knowledgeable, helpful service representatives, and you have a winning combination. I truly appreciate Shelby support—they have saved the day more than once!"

Lori, Baton Rouge

"I have been using Shelby Systems software for ten years, working mostly in financials. This is a versatile software system that is user-friendly and updated periodically to stay current in an ever-changing environment."

Beth, Cincinnati
